### Hyper-acute Stroke Program

The central south region is supported by a hyper-acute stroke system. Paramedics are trained to assess patients for eligibility for acute stroke treatment including thrombolysis. Patients are triaged to the closest or most appropriate stroke centre.

Hyper-acute stroke treatment is available at:

The Hamilton General Hospital (Regional Stroke Centre),  
Greater Niagara General Hospital (District Stroke Centre),  
Brantford General Hospital (District Stroke Centre),  
Grand River Hospital (District Stroke Centre)  
Guelph General Hospital,  
Joseph Brant Hospital.

**Acute stroke is a medical emergency. Patients and health care providers are asked to call 911.**
