

CSRSN Strategic Objectives 2020-2025

The Regional Stroke Strategic Plan is made up of our 3 foundational pillars – **Advance**, **Collaborate** and **Educate**. This document is meant to define those pillars and indicate the key objectives for each.

ADVANCE

Advance the implementation of innovative stroke best practices across the continuum of care.

Hyperacute Stroke Treatment and Secondary Stroke Prevention

Acute Stroke Unit Care

Rehabilitation Intensity and Access for Stroke

Community Stroke Rehabilitation and Reintegration

Utilization of Virtual Care

COLLABORATE

Foster collaboration and networking in the implementation of stroke best practices across the Central South Region.

Incorporate the Patient and Caregiver Voice

Feedback Loops to Optimize Engagement

Opportunities for Collaboration

Recruit Stroke Specialists

Research into Clinical Care

EDUCATE

Provide evidence-based education for healthcare providers working in stroke care to develop stroke expertise across the Central South Region and facilitate greater public knowledge about stroke.

Access to Evidence-Based Education

On-Line Education Platform

Standardized Education Resources

Patient Education Tools

Public Awareness
